Introduction

Speaker notes: 1. Intro Jess and Sharon 2. House rules * Questions in chat collected * Raise hand for conversation * Q&A collected 3. Foreshadowing of how we got here

UvA AI Chatbot

Demo

aichat.uva.nl

- Chatbot userinterfase
- Multiple models
- Hosted on our servers
- GDPR compliant

- Zero data retention

Speaker notes:

- Support and feedback
- Demo prompts
- Deletion of chats
- New Chat
- L2R model, persona, documents, extensions, and download
- L persona
- Groups
- Extensions
- Prompt library
- Projects
- Settings

Large Language Models in a nutshell

Simple explainer video by 3Blue1Brown.

Speaker notes:

GoTo 2:41 Cover Static model Prompt filter preparation Data on not used

Implementation strategy

Strategy for implementation

You don't have to use it!

- September-October: Just sit on the fence
- October-January: If you want to use AI start preparing with our team
 - [TLC-FMG AI consultancy](#)
- February: Use in education

Experimenting

Practical usecases

- Teacher's Sparring Partner
- Translation of Texts from EN to NL and vice versa
- Lesson Plan Inspiration
- In the Classroom
 - Activating the Classroom Prompts & Question/Answer for Engagement [based on articles]
 - Help students use it as a study tool and also as a writing tool

I used it too much, I could have learned more. (Anonymous Student)

Assessment

- Item Creation
- Answer Model Generation
- Elaborative Feedback (with Love)
- Rubric Inspiration

BUT - Elephant In The Room - Fraud

- Check Your Essay Prompt
- Add parameters that are hard for AI to do [use resources from class; cite 10 resources that are peer-reviewed journals]
- Find Different Ways of Supervising (can you somehow see the process?)
- Add Presentation
- Talk with your students

Can you explain your paper

Critical considerations

Regulations

- When Can/Can't Use the Tool
- Examination Board Integration is Key – Tell Your Students Your Policy

Values

- Restraints in the Bot can be surprising
- Ongoing community dialogue about our values in education and the needs of the labor market
